

SURROUNDS HT26 In Wall

Bipolar In Wall Surround System

Achieve an uncompromised, high-end cinema experience with the discreet power of the HT26 In-Wall speaker system. Specially optimised for flush in-wall installations, this sophisticated 2-way system utilises a finely tuned bipolar enclosure to envelop the room in an ultra-wide, atmospheric soundstage. World-class Lavoce drivers, combining a 6-inch low-frequency driver with dual 1-inch soft dome high-frequency drivers, deliver remarkable acoustic clarity, depth, and precision. Fully Dolby 7.1 and Dolby Atmos ready, it seamlessly integrates into the structure of your private theatre or VIP home cinema to make your favourite films feel truly larger than life.
