SURROUND CHANNEL S1220

Pro Cinema. Sounds Great!

Cinema Surround Speaker System

Delivering maximum coverage and exceptional headroom for expansive auditoriums up to 70 feet wide, the S1220, is a high-performance 2-way passive surround loudspeaker that represents the pinnacle of ambient immersion. It features a robust, braced cabinet meticulously engineered to direct acoustic energy across the entire audience while effectively eliminating undesirable ceiling reflections. At its heart, a powerful 12-inch world-class Lavoce low-frequency driver is paired with a 1-inch exit compression driver on 80° x 60° constant directivity horn for flawless high-frequency control. Optimised for the most demanding Dolby Atmos, Dolby 7.1, and DTS:X soundtracks, it ensures a deeply captivating, seamless soundstage throughout the entire venue.
