

Pro Cinema. Sounds Great!

SURROUND CHANNEL S820CX

Cinema Surround Speaker System

Expanding our Pro Cinema range into the ambient space, the S820CX is engineered to deliver flawless multi-dimensional immersion in rooms up to 35 feet wide. This high-performance surround loudspeaker features a robust cabinet with a precisely angled 12-degree front baffle, optimised to maximise acoustic coverage while minimising unwanted ceiling reflections. Utilising a premium 8-inch dual-concentric coaxial driver from Lavoce, it eliminates phasing issues to project a broad, 100-degree symmetrical dispersion pattern. Fully ready for Dolby Atmos, Dolby 7.1, and DTS:X, the S820CX ensures every seat is seamlessly enveloped in pristine, cinematic sound.
