Pro Series

DB 8S

Two Way High Power CINEMA Surround System

DB 8S provides high power and high sensitivity surround for small cinema. The system is comprised of one high power 8" LF with 0.75" Throat HF. The special horn ensures uniform dispersion of the high frequency information throughout both the vertical and horizontal coverage angles to reproduce good quality highly accurate digital surround soundtracks as recorded.

Features:

- Designed for Optimal output, Wide Coverage & Less Distortion
- Suitable for Small to Very Small Format Venues
- Built with world class DB Sound Loudspeakers
- Cost effective Cinema Surround System
